

## LAB 21 Coaches Fund

### 2017 Update

The Foundation recognizes that serving as a coach is truly a special gift that requires commitment of one's precious time and talents and hence we felt it necessary to pursue options on how to acknowledge their hard work and dedication. After conversations with Coach Andy Kallsen who was Logan's coach, we learned there were a number of items that each coach purchases with their own resources. The LAB21 Coach's Bag provides coaches with items to help carry out coaching duties with greater ease.

In 2017 the foundation elected to distribute the LAB21 Coach's Bags outside of the Hawks organization and into areas that were in much more need of these additional supplies. This year's recipients were the Denver Police Athletic League and the Alameda Football Programs.
